# Replicable results with open source software, open data, and open standards

**OpenStreetMap**

The image shows a mobile application interface for trip planning. At the top, there are two buttons: "Plan A Trip" and "Find a Line", followed by a hamburger menu icon. Below this is a "Search Nearby" section with two input fields: "Start Address" and "End Address". The "End Address" field has a location pin icon to its left and a dropdown arrow to its right. Below the address fields are four tabs: "Now", "Leave At", "Arrive By", and "Range". The "Leave At" tab is selected, showing a date of "Monday Jan 2" and a time of "12 : 05 PM". Below the tabs is a grid of eight transport mode icons: LEARNING (with a person icon), BUS (with a bus icon), BIKE (with a bicycle icon), BIKESHARE (with a bicycle icon), WALK (with a person icon), FERRY (with a boat icon), TAXI (with a car icon), and ACCESSIBLE (with a person in a wheelchair icon). At the bottom of the interface is a large "Search" button.
