

Electric Cab North America

Urban Mobility on Demand

www.ecabna.com

About Us

- Electric Cab is currently operating in Austin, TX, and St. Louis, MO, with further expansion plans
- Micro-transit solution for dense urban cores
- First/Last Mile connector for food and transit deserts

Current Operations

Downtown Austin

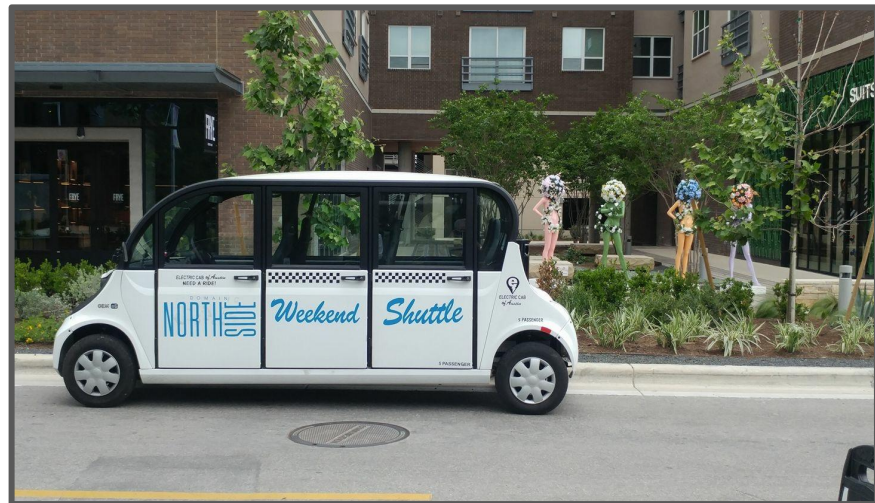

- Providing micro-transit to patrons of the downtown entertainment district
- Advertising platform
- Operation began in 2008

Domain NorthSide (Austin)

- Partnered with Endeavor Real Estate
- Provides 2 circulator routes inside the Domain NorthSide development
- Rides are complimentary to passengers
- Operations began in 2016 and are ongoing

Electric Last Mile Project (Austin)

- Electric Last Mile (ELM) service partnered with the Pecan Street Project, Department of Energy, and Capital Metro
- Provides last mile service to 3 light rail stations in Austin
- A to B transit if service requested within a zone
- Dynamic routing
- Connecting multiple districts

MX Circulator (St. Louis)

- Provides a circulator between the MX district and Busch Stadium during Cardinals games
- Planned to renew for our 3rd year in 2018.

Downtown Kirkwood Connector

- Partnered with the City of Kirkwood
- Provides Micro-Transit, funded through the Downtown Kirkwood Special Business District
- No cost to the riders
